EDUCATION

St. Andrews Institute of Technology and Management (MDU)

July 2022 - July 2025

Bachelor of Computer Applications

Gurugram, Haryana

TECHNICAL SKILLS

Languages: C, C++, Java, HTML, CSS, JavaScript

Frameworks/Libraries: React.js, Spring Boot, Tailwind CSS, Hibernate/JPA

Developer Tools: Git, GitHub, VS Code, IntelliJ IDEA

Databases: MySQL

Methodologies: Agile, Engineering Best Practices

EXPERIENCE

CodetalentX

April 2025

Role - Software Developer

Noida, Uttar Pradesh

- Developed backend features for the Ease Stay hotel booking platform using Java, Spring Boot, Spring MVC Architecture, and MySQL.
- Implemented RESTful APIs for hotel listing, booking management, and authentication.
- Optimized database queries and ensured smooth data handling for large user requests
- Collaborated with the team to resolve bugs and improve application stability, achieving 99.9% uptime.

Anudip Foundation

March 2024 - October 2024

Role-Software Developer Trainee

Gurugram, Haryana

- Developed a Student Management System using Java, Hibernate, AWT, and Swing. Real-time CRUD operations enabled and improved administrative efficiency by 35%.
- Integrated Hibernate ORM with MySQL to streamline database interactions. Reduced boilerplate code and improved performance with secure session handling.

PROJECTS

Path2Ecom.in –E-commerce Training Platform [🔗](#) | Spring Boot, React.js, MySQL, Razorpay **July - 2025**

- Orchestrated** the development of a full-stack platform for a freelance client to manage and sell online courses with payment and dashboard features.
- Built secure RESTful APIs** and a scalable frontend using React.js, integrating the Razorpay payment gateway for seamless transactions.
- Designed platform features** with compliance and security considerations aligned to standards used in financial and regulated systems.
- Handled server deployment**, setting up VPS hosting with Nginx, and configured SSL (HTTPS) for secure, production-level deployment.

AI-Research Assistant [🔗](#) | Spring Boot, WebClient, JavaScript, Google Gemini API

June - 2025

- Built a full-stack **AI-powered** Chrome Extension with a Spring Boot backend and frontend in HTML/CSS/JavaScript to summarize selected webpage content using the **Gemini API**.
- Developed REST APIs for processing user input, integrating Google Gemini via WebClient, and returning structured summaries to the extension UI in real time.

Certifications Achievements:

AWS Certified: Solutions Architect – Associate Networking VoIP Security [\[Link\]](#)

HackerRank Certificates:

Software Engineer (Problem Solving, SQL, REST API) [\[Link\]](#) ,

MYSQL (Advanced: Query Optimization) [\[Link\]](#)
